Description

Unique identification number
Date when call was received
Date when interview was conducted
Applicator or Non applicator
Location of field - State
Location of field - County
Latitude
Longitude
Date on which phone interview was attempted
Date of planting
Date of visit
Affected crop on non applicator field
Brand of the affected crop
Total acres
Acres showing slight symptomology
Acres showing moderate symptomology
Acres showing severe symptomology
Soy growth stage showing maximum symptomology
Crop height (inches) showing max. symptomology
Initial assessment made by grower
Crop variety planted on affected field
Soy growth stage showing least symptomology
Crop height (inches) showing least symptomology
How is the injury spatially distributed?
Description of symptomology
Description of symptomology
Description of symptomology
Description of symptomology
Description of symptomology
When was the symptomology first observed on
What was the first action taken upon observing symptomology. 999 is Unknown
Were pictures taken?
Was the state contacted
Are you willing to share with Bayer?
Was a complaint filed at the state
Product applied on affected field
Product applied on affected field
Product applied on affected field
Product applied on affected field
Product applied on affected field
Product applied on affected field
Was dicamba applied on the farm or in negboring fields?
Was the application made by a certified applicator?
Products applied on the affected field
Products applied on the affected field
